## Intervention and Prep Programs

### YOUR CHALLENGES:

- What was once considered meeting AYP, is now considered failing.
- Large number of students below grade level in Reading/ELA, Math and/or Writing.
- Your school has not met Annual Yearly Progress (AYP) in 3 years or more.
- A sudden increase in disciplinary problems.
- Inadequate funding for a full-time college/career counselor.

### OUR SOLUTIONS:

**The Right Prep's Enrichment Hours.** The Right Prep's Enrichment Hours gives your students 1-2 hour(s) of intensive services daily for Reading/ELA and Math after school. These sessions include curriculums chosen for your school and its specific needs by our Reading/ELA and/or Math Intervention Specialist.

**Supplemental Education Services (SES Program).** As an approved Supplemental Education Services (SES) provider in multiple states, our students come from Title 1 areas, have been multiple grades behind level, and are always incredibly diverse. Students are unique, and there is no blanket solution that will fix every problem, which is why we provide Diagnostic Testing, Individualized Student Learning Plans, District and School Reporting, and low student to instructor ratios so that every student is treated as an individual and given the attention to work on their specific needs.

**Team Prep™** students learn to solve problems as a unit, verbalize issues with respect, cooperation, compromise, listening, strengths vs. weaknesses and identifying charge words. This is an after school program that gets your students involved with each other so that there is a mutual respect for one another. It makes the school a safe learning environment that will always provide focus on academics.

**PREP U™** is our six week College/SAT Prep program that provides SAT prep in all subjects as well as answers students questions and concerns about college. This program can be after-school or on Saturdays.
